CREDIT: Credit is always appreciated but not required.

You may:

Create items for sale in digital kits which are for personal use & are also S4O/S4H friendly. My products **MUST BE** altered for any type of usage- you may not sell them or give them as freebies in their original format. This includes, but is not limited to, brushes, overlays & shapes.

You may not:

**YOU MAY NOT** Resell my original files. They **MUST** be modified. They are a tool to be used for creation or items for digital kits, element packs, paper packs & alphas (packaged along with other elements) keeping in mind that my elements should not be the primary designs (not more than 30% of your designs per pack may be my commercial use items. You may not resell a pack of flowers using my CU flowers recoloured for example.)

**YOU MAY NOT** use these to create products you sell for Professional Use by other designers.

**YOU MAY NOT** include any of my CU products in layered templates for CU OR PU. Styles must not remain "active" and should be merged with another layer to flatten.

**YOU MAY NOT** use them to create actions, styles or PSP scripts & tubes.

Do **NOT** share in Yahoo Groups, Rapidshare, Pando, 4Shared, demonoid etc. or any other file sharing group/website. Sharing is stealing and does **NOT** fall

under the Fair Use Act.

Thanks for reading! And thanks for your continued support.
